"Learning Through the Environment"

February 26, 2008

Dear Frank, Ellen, and Michael:

On behalf of the children and community of Upper Dublin, I would once again like to thank you for your foundation's generous donation to Robbins Park Environmental Education Center. Each year your financial support enables us to provide quality education to thousands of students and adults in the Upper Dublin community.

Your family, and especially Kate, has always had a passion for the outdoors. In a community like Upper Dublin, the staff of Robbins Park has always felt a strong responsibility to enrich children's lives with outdoor experiences that will encourage a love of nature. Our goal is to empower children to become stewards of the environment as they grow into adulthood.

The donations of the Kate Svitek Memorial Foundation have been used to support many projects in the Park. In 2004 we used the funds to enhance and refurbish our children's gardens. In 2005 and 2006 we were pleased to use some of your funding to complete Boy Scout projects at the Park. With last year's donation, we were able to provide a "camping" experience to students who would not otherwise be able to participate.

This year I am looking forward to collaborating with Frank and Ellen to establish an annual event at Robbins Park that will be a tribute to, and a continuation of Kate's endeavors to give young people the outdoor experiences she was so fortunate to have as a child.

Again, I thank you for your continued support of our Robbins Park experience.

Very Sincerely Yours,

Sara Smith, Director
