

Dear Mr. and Mrs. Svitek,

I would like to thank you for the wonderful opportunity that you provided me. I would never have been able to go on a trip like this if the opportunity had never come along. I had many challenges that made me a bit stronger on Outward Bound. I climbed higher than I thought I could. I crossed rivers multiple times and enjoyed it. I have made many friends and I continue to speak to them even though we're miles away from me. I cried, laughed and joked the whole time. Even though I wanted to go home the second day, I am glad I stayed. It was worth it.

I would like to go again some time in the future. I still read my journal and think back on those two weeks that I was out there. I talk a lot about you guys and how much I appreciate the opportunity given by you. I could not thank you enough.

I do many things that I did while I was out there. I talk about my friends, instructors and the things we came across. Sometimes, I wish that I was out there enjoying nature and getting to see it hands on. I walked through just about anything. I would not trade that experience for the world.

Thank you so much.

Sincerely,  
Petrina Sanchez
